

Welcome to ASDXDDL8M3- Data Modelling and Management

Moving around

Navigation

Right click + drag / Space bar + drag = Panning mode
/ Mouse wheel = Zoom in
/ Mouse wheel = Zoom out
Ctrl + > = Zoom to selected object
Ctrl + 1 = 100% zoom
Ctrl + 0 = Adjust zoom to show all content
T + < or > = Move on the board
Ctrl + Shift + [1-9-z] = Jump to quick link

Shortcuts to use

Selection

Click = Single object selection
Shift / CTRL + click = Multi selection
Shift + click & drag = Area selection
R = Toggle area selection
Ctrl + A = Select all
Alt + < or > = Select next object in the direction
Alt + Shift + < or > = Select group child or parent
Esc = Deselect object and reset to standard selection

Tool.

N = Add sticky note
G = Add rectangular sticky note
S = Add shape
T = Create text
C = Add comment
L = Add line
D = Draw with mb brush
P = Previous brush in drawing mode
E = Eraser in drawing mode
Ctrl + L = Lock/unlock object
Ctrl + Shift + P = Pin/unpin object
Ctrl + H = Hide/unhide object

Have a play

Use the tools to get familiar with adding content.

Housekeeping

Rules regarding webcams

Keep your Webcam on throughout the delivery

Rules regarding mute

Keep your Microphone off throughout for privacy unless you are asked or need to respond.

Frequency of breaks

Short breaks are scheduled every hour to support you with your learning.

Rules regarding group participation

Everyone should equally participate in Group discussion and take lead in contributing your ideas.

Anything else

The facilitator has 15 minutes to ask questions "how often should we respond?" Please have a go at answering questions. In a minute when needed, a group will be asking questions, you are helping me out and

Activity 1: Movies Database Normalisation

On this page, you will find the task of creating an Entity-Relationship diagram for a movie database. The task is divided into three parts: 1. Identifying the entities and their attributes. 2. Identifying the relationships between the entities. 3. Creating the Entity-Relationship diagram.

Task 1: Identifying the entities and their attributes.

Identify the entities and their attributes from the information supplied. Hint: There are at least 5 entities needed and 2 of these are bridging tables.

Task 2: Identifying the relationships between the entities.

Identify the relationships between the entities and their attributes. Hint: There are at least 5 relationships needed and 2 of these are bridging tables.

Task 3: Creating the Entity-Relationship diagram.

Create the Entity-Relationship diagram for the movie database. Hint: There are at least 5 entities needed and 2 of these are bridging tables.

Movies and Actors Database

Identify and name potential entities from the information supplied. Hint: There are at least 5 entities needed and 2 of these are bridging tables.

Entity Description

Database Name: MovieDB

Entity Name: Actor

Attributes: Actor ID, Name, Gender

Primary Key: Actor ID

Constraints: (Not Null)

Entity Description

Database Name: MovieDB

Entity Name: Movie

Attributes: Movie ID, Title, Release Date, Budget, Runtime, Popularity

Primary Key: Movie ID

Constraints: (Not Null)

Entity Description

Database Name: MovieDB

Entity Name: Director

Attributes: Director ID, Name, Gender

Primary Key: Director ID

Constraints: (Not Null)

Entity Description

Database Name: MovieDB

Entity Name: Director_Movie

Attributes: Director ID, Movie ID

Primary Key: Director ID, Movie ID

Constraints: (Not Null)

Entity Description

Database Name: MovieDB

Entity Name: Actor_Movie

Attributes: Actor ID, Movie ID

Primary Key: Actor ID, Movie ID

Constraints: (Not Null)

Entity Description

Database Name: MovieDB

Entity Name: Director_Actor

Attributes: Director ID, Actor ID

Primary Key: Director ID, Actor ID

Constraints: (Not Null)

Entity Description

Database Name: MovieDB

Entity Name: Director_Actor_Movie

Attributes: Director ID, Actor ID, Movie ID

Primary Key: Director ID, Actor ID, Movie ID

Constraints: (Not Null)
